

## Online Teetimes and Training Sessions inclusive APP and Responsive Design

### Mobile 24/7 start time booking - according to your rules

Your members and guests can comfortably browse for information about your free tee times or training sessions, and make the bookings. You set the rules, for example, the starting time for groups, how often a group can visit you, how far in advance they have to book or under what circumstances can a booking be cancelled: an enormous simplification on your part, and self-service for your customers. And you can control everything. You will always have access to the posting statistics, and get an overview of the use of the system. There are no external management tasks. All bookings will be directly transferred in PC CADDIE.

### App and Responsive Design - optimize your customers' booking behavior

With the PC CADDIE://online App and its responsive design your customers can comfortably book all the required online services for tee times, training, even for e-carts, trolleys or rental clubs, via mobile phone, pad or tablet, in the appropriate resolution. Downloading the appointments in the private Outlook calendar is included. The App offers dedicated operator access with tournament functions that go far beyond a classic overview of seats, for your marshals and starters. Please feel free to test it!
